EIZO Opens New R&D Centre at Headquarters in Japan

New R&D Center, Hakusan, Japan

EIZO Nanao Corporation (TSE: 6737), the specialist manufacturer of high-end visual display products, last week announced the opening of its new centre dedicated to Research and

Development at its corporate headquarters in Hakusan, Japan. The 2.5 billion yen (21 million U.S. dollars) six-floor building has a total floor space of 13,000 square meters and capacity of 600 personnel.

EIZO has identified continuous investment in R&D as a key factor in achieving the goals set forth in its mid-term business plan (2006-2008). With the opening of this new centre, EIZO's R&D staff will be centralized in one location, allowing the company to improve efficiency, reduce development times for new products, and increase competitiveness.

EIZO Nanao Corporation is a leading global manufacturer of high-end visual display products with a wide range of LCD monitor systems. The image quality, long-term reliability, and innovative features of EIZO monitors make them the products of choice in many financial trading rooms, hospitals, back offices, and design studios. EIZO is based in Japan and represented in more than fifty countries by a network of exclusive distributors.
